

### Go Green Gas

Dedicated website – Yes

Organisation webpage – No

Centralised portal – ENA Smarter Networks

Objectives/Success Criteria – Yes

Closedown/final report – Yes

Open-source data – No

Peer-reviewed academic output (Primary Subject / Referenced) - 1 / 0

Brochures/Case Studies/Videos – Yes

On-line major conference/event presentations - 0

Dissemination Event / Output available – 1 / 0

Follow-on project – Yes (Pilot to full commercial plant projects)

### Consumer Engagement

Consumer Participation – No

Consumer Feedback – No

### Output Summary

Progress reports – Yes

Detailed and objective final report – Yes

Project method detailed – Yes

Performance to objectives detailed – Yes

Lessons learned identified – Yes

Policy/Regulation implications reviewed – No

### Outcomes vs. Objectives/Targets

Performance to objectives – All achieved

### Key Findings

- Pilot project demonstrated that this type of plant could be successfully operated.
- Ongoing government support for bioSNG plants is required until mature.
- BioSNG is flexible regarding the hydrogen proportion in the output, allowing support for a variety of future scenarios.
